Dear Geoscientist and Engineers,

On behalf of the organizing committee, we would like to welcome you to the "Eurasia Geoscience Congress and Exhibition 2023 -EGCE2023" to be held in Antalya, Türkiye, November 10-13, 2023.

Key topic is the use of geophysical methods/technology in broad field of geosciences from Earthquake prediction, engineering geosciences to resource exploration and energy transition.

Where better could this be than in Antalya because of its natural and historical background. Antalya is blessed with an amazing climate for the whole year. The main ancient Greek-Roman cities you can visit during congress in Antalya is Side, Aspendos, Phaselis, Xanthos and Thermessos. Inside, you can visit Apollo Temple where Anthony met Cleopatra there! Some of these ancient cities are in the UNESCO's World Heritage List. You will love the sea, nature, beautiful beaches, and delicious Turkish food during conference. We will present you with a very enjoyable congress with beautiful events and shows related to local culture.

We expect that the topics, from seismology, tectonic, mining geophysics, geology, hydro-geophysics/geology, Site Investigation with Geophysics and Geology Studies, Seismic data acquisition and processing, Geophysical and other non-destructive studies of buildings before and after earthquake, case studies about countries from Europe, North Africa, Middle East and Asia, Oil & Gas and Geothermal exploration will undoubtedly attract geoscientists, engineers, representatives of oil companies, engineering companies, researchers and students from many different countries. We expect that you will have an interesting and rewarding time by attending talks, visiting the exhibition, and enjoying the social program.

We would like to express our appreciation and congratulations to all those involved in organizing the EGCE2023. And don't forget to enjoy Antalya, with beautiful beaches, brilliant art, archaeological sites, exotic markets, food and fun.

Registration

All registration fees are including,

- Attending technical presentations and exhibition boots
- 3 (three) night accommodations (in double rooms) in an all-inclusive hotel
- Airport transfer.
- All participants will share a room with another delegate.

**Note that delegates that selected registration with a single room, he/she will pay an extra 240 €.

Registration and Payment	until 15th October 2023	on site
Full registration	550 €	700 €
Family Members	350€	450€
Young Geoscientist and Student Registration (student ID card should be shown on site)	350€	450€
One day attending (it does not include accommodation)	-	100 €

Important Dates:

Opening registration and abstract submission	1 August 2023
Deadline for abstracts submission	15 October 2023
Deadline for early registration	15 October 2023
On site registration	10-12 November 2023

EURASIA GEOSCIENCE Congress and Exhibition 2023

Topics

1. Geophysics and Geology Studies for deep Earth investigations
2. Site Investigation with Geophysics and Geology Studies
3. Geophysical Methods and other Non-Destructive Studies of Buildings before and After Earthquake
4. Petroleum Geology
5. Geological and geophysical investigations for Oil and Gas Exploration and development
6. Geophysics contribution to the Energy transition (Geothermal, CO₂, wind , solar, minerals)
7. Mining Geology and Mining Geophysical Studies, Geothermal Exploration
8. Hydrogeology and Hydrogeophysics Studies
9. Archaeometry, Archaeogeophysics and Archaeogeology
10. Modeling, Inversion and Optimization in Geoscience
11. Exhibitor Session
